# Super Slinger

**High Performance Round Slings** 

Building the world, one lift at a time!

## **Heavy Lifting... Light Slings!**

### **Super Slingers can be 15 times lighter than steel**

- Reduce the amount of manpower needed for the job.
- Reduce the time it takes to do the lift.
- Super Slingers weigh less than 16% of what a wire rope sling would weigh.

# First ever round sling with Nanotechnology applied on the cover

#### **Durable protective function**

Due to the extremely high level of abrasion resistance, the Nano covers protective function is retained even with heavy-duty use, frequent washing or cleaning.

#### **Naturally Self-cleaning**

Oil, dirt and dust do not adhere to the Nano surface and can be rinsed off with water.

## **Rely on full inspection**

### **Prevent delays! Save money!**

Pre-failure warnings on slings often present a false alarm, when in fact the sling is ok to use. Prevent delays with your lift, and save money with inspection costs by using Super Slingers. tley Boss, we just received this sling back from inspection, I put it up on crane, and pre-failure warnings have failed again. What should I do?

What should I do!

You can't use it, put the sling in the barrel with the others.

Even with overload indicators you must inspect the entire length of the sling.

The indicator is okay, we can proceed.

MUST be done on the entire length of the sling!
